DON'T PUT HANDWRITING ON THE BACK-BURNER | 1 HOUR
In a world where students are equipped with cell phones in their hands and Chromebooks on their desks, handwriting instruction quickly lost its practice in the classroom. This session will inform teachers of the importance of keeping handwriting instruction alive in the digital age.

OTES RUBRIC

Ohio Teacher Evaluation System — Assessment of Teacher Performance

Teacher Performance Evaluation Rubric

The *Teacher Performance Evaluation Rubric* is to be scored holistically. This means evaluators will assess which level provides the best overall description of the teacher. The rating process is to occur on completion of each 30-minute observation and post-conference. To determine the rating for each 30-minute observation, the evaluator is to consider evidence gathered during the pre-conference, observation, post-conference and classroom walkthroughs, if applicable. Note that when completing the performance rubric, evaluators are not expected to gather evidence on all indicators for each observation cycle. Likewise, teachers may, but are not required to, bring additional pieces of evidence to address all indicators. The professionalism section of the rubric may use evidence collected during the pre-conferences and post-conferences as well as information from the Professional Growth and/or Improvement Plan, if applicable.

SCIENCE OF
READING

The term "science of reading" refers to the research that reading experts, especially cognitive scientists, have conducted on how we learn to read. This body of knowledge, over twenty years in the making, has helped debunk older methods of reading instruction that were based on tradition and observation, not evidence. ESCEO offers support and resources to guide educators in the many pieces that contribute to skilled reading in this research-based approach to fluency in word recognition and text comprehension for readers.

SOCIAL & EMOTIONAL LEARNING

Social and Emotional Learning (SEL) skills are necessary in the current climate and beyond for both students and educators. Cultivating educator resilience and promoting mental health allows educators to model SEL competencies, manage stress and reduce burnout. ESCEO SEL support gives participants the opportunity to reflect on and improve their own social and emotional development and well-being while examining high leverage practices for enhancing student and educator SEL. Support includes tools, resources and strategies to establish learning environments that enhance students' social, emotional and academic growth.
